CARREER MOTIVATION

Seeing how automations designed by engineers have simplified human life inspires me to tackle complex problems and create innovative solutions. I am eager to further develop my technical skills to contribute to meaningful projects alongside other ambitious developers.

EDUCATION

2018-2021	PNU Tehran-North (Iran), Computer Engineering (left for immigration purposes)
2019	GOETHE Institute , German B1 level
2022-2024	Uludağ University, Vocational School (Türkiye, Bursa), Computer Programming

EXPERIENCE

2018 (6 Months)	Internship, Sharq newspaper (Iran) Our job was to keep track of servers to function correctly and solve computer problems that happen to journalists. This included monitoring server health, troubleshooting technical issues, and providing prompt IT solutions.
2020(5 Months)	Product Price and Cargo Manager, Timcheh co. (Iran) Our main goal was to set extremely low and competitive prices and manage sales simultaneously. This role enhanced my understanding of organizational hierarchies and effective communication between departments such as finance, customer support, and logistics to achieve common goals efficiently.
2024 (1 Month)	Internship, Defne Telecommunication (Türkiye) Our job is to manage data packets for 3 of most known Turkish mobile operators and solve connection problems in case of happening. Additionally, collaborating with developers and engineers across multiple teams further improved my ability to communicate technical concepts in a professional yet approachable demeanor.
